

***Three Parkway
Philadelphia, PA***

The Amstar Group property, Three Parkway in Philadelphia, pictured above required Blue Rock to perform a 15,000 square foot street front and lobby renovation project in a high foot traffic area of an occupied building in Center City Philadelphia.

The renovation included installing new store front glass, revolving doors, lobby heat and granite flooring. In addition, new street front canopies and feature wall were to be illuminated with a complex system of programmed LED lighting fixtures.

Blue Rock broke the project into two phases. Phase One included the Installation of the exterior main and secondary canopies, followed shortly by the store front and interior lobby renovations.
