To Whom It May Concern,

I am writing this reference letter in support of the work and professionalism that I have experienced with the team from Blue Rock Construction. Over the past 2.5 years, I have worked with Blue Rock on various projects on behalf of my company, Recall. At all times, and especially under some difficult time frames, the Blue Rock group performed at high levels and with a complete understanding of my time commitments and project needs.

Recall is a provider of information management and storage services to other businesses. Our focus is the protection and handling of companies' sensitive documents and data. Therefore, when we began our search of vendors to assist us in building storage vaults, we were delighted to find and develop a strong relationship with Blue Rock Construction. Blue Rock met our tough criteria for partnership and they have lived up to our expectations on every project to date. Most significantly, they took the time to learn and understand our niche business, so they would better grasp what our special needs were, and why they were important to us.

In particular, I would like to highlight the work of John Piekarski, Project Manager for Blue Rock. John has been an instrumental part of Recall's success in the past two years. He has partnered with Recall on 6 separate projects, but there was 1 project that had extreme importance to Recall and had Board of Directors-level attention on it. With John's help, our integration team was able to find a site, complete the plans and drawings, select sub-contractors, begin and complete work on schedule. Everything was accomplished in a 4-month time frame. Because of this quick and thorough delivery, Recall was able to not only meet, but also exceed our client's expectations. In fact our client, a Fortune 100 company, stated that the integration was one of the smoothest they had ever experienced. Recall would not have received those accolades if John Piekarski and Blue Rock Construction had not been a part of the process.

Thanks again to John and the rest of the team at Blue Rock. I will continue to look for support from your group, as Recall continues to expand its footprint in North America and Globally.

A handwritten signature in blue ink, appearing to read "John A. Hansen".
