

Christopher Frey
Senior Superintendent

Blue Rock

BIOGRAPHY

Chris began his construction career as a carpenter for a residential/commercial contracting company. From there, Chris advanced to become a construction foreman for a commercial contracting company, working on various projects ranging from new construction restaurants to office renovations and fit-outs. This experience provided Chris practical knowledge in managing active construction projects. Chris' high standards and exceptional motivation skills earned him a transition to the role of Senior Superintendent.

PROFESSIONAL PROFILE

Chris has over 20 years of experience in the construction industry. As Senior Superintendent, Chris manages projects from the start of construction through completion. Chris' ability to work with owners, developers, design professionals, code officials and sub-contractors gives him the necessary traits to complete projects in a timely fashion and on budget. Chris' communication skills and ability to work through day-to-day challenges make him a valuable part of our construction team.
