Blue Rock Construction, Inc.
1712 Hancock Lane
Burlington, NJ 08016

To Whom It May Concern:

Our company approached Blue Rock Construction because we were looking for a company with experience and presence in the New Jersey area. We were planning several projects to grow our business and needed a client that would be able to meet our budget and timeline needs.

Blue Rock helped our company by being able to work with us from project concept to completion.

As a result of partnering with Blue Rock, we have been able to meet our targets and continue to build our facilities in NJ.

One aspect of the project we greatly appreciated was Blue Rock's ability to communicate issues to our engineering staff, which is located out of state, so issues could be promptly addressed.

I found the experience with Blue Rock both enjoyable and productive. I would highly recommend Blue Rock to people who need an experienced and dependable contractor who can get the job done!

Sincerely,
Shane Roach
Project Engineering Manager, Mapei Corporation
