Allentown, PA 18106

To Whom It May Concern:

It was a real pleasure having Blue Rock Construction build our largest state-of-the-art recycling facility in the U.S. CarbonLite was very impressed with Blue Rock's high level of professionalism throughout all phases of the project.

The highly specialized project included design, engineering, procurement, sub-contracting, construction management, project management, site supervision, permit, inspection and close out. They were responsible for the construction of the building, offices, MEP and site work.

Blue Rock not only delivered the highly technical building within the time allotted but also helped us value engineer this facility to help keep the cost within budget. This was done without sacrificing quality. Ross Jarsocrak, Eric Wily and Zach Covaleski were great team members to work with.

Blue Rock Construction was the right choice for our company and would recommend them to others seeking a top-quality, professional construction-management team.

Thank you to the entire Blue Rock team for a job well done.

Sincerely,

A handwritten signature in black ink that reads "Vijendra Siddhi".

Vijendra Siddhi,  
Vice President, Engineering
