

Christopher Frey
Senior General Superintendent

Blue Rock

BIOGRAPHY

Chris began his construction career as a carpenter for a residential/commercial contracting company. From there, Chris advanced to become a construction foreman for a commercial contracting company, working on various projects ranging from new construction restaurants to office renovations and fit outs. This experience provided Chris with practical knowledge in managing active construction projects. Chris' high standards and exceptional motivation skills earned him a transition to the role of Senior General Superintendent.

cfrey@blrck.com

PROFESSIONAL PROFILE

Chris has over 32 years of experience in the construction industry. As Senior General Superintendent, Chris manages projects from the start of construction through completion. Chris' ability to work with owners, developers, design professionals, code officials and sub-contractors gives him the necessary traits to complete projects in a timely fashion and on budget. Chris' communication skills and ability to work through day-to-day challenges make him a valuable part of our construction team.

Chris has worked with retail, school, state and municipality projects, industrial development, warehouse/ distribution, and pharmaceutical projects in both design-build and hard-bid scenarios.
