Blue Rock Construction
1712 Hancock Lane
Burlington, NJ 08016

To Whom It May Concern,

We recently completed a building restoration project with Blue Rock Construction in the Philadelphia area, and I could not be more satisfied with the outcome. Having been involved in numerous construction projects over the years, this experience stands out as one of the best.

Despite managing the project remotely, I was quickly put at ease by Kevin Kelly and the Blue Rock team. Their professionalism, clear communication, and attention to detail gave me confidence from the outset that the project was in capable hands.

The team was attentive to every aspect of the work and consistently proactive throughout the process. They also connected me with trusted subcontractors for additional work, all of whom were highly responsive and delivered excellent results.

What truly set Blue Rock apart was the way their team operated—collaboratively, with strong accountability and a shared commitment to meeting every deadline. Their consistency and coordination were evident from start to finish.

I would not hesitate to work with Blue Rock Construction again and would confidently engage them on future projects, regardless of location.

Joe Hammond, Director of Operations
